Be Safe In The Summer

The single most common safety hazard during the summer is vehicle accidents, according to U.S. Army Europe Safety office. More than 40 percent of all driving fatalities and almost 75 percent of all driving accidents occur between May and September. More information is available on the USAREUR Safety Office Web site at www.per.hqusareur.army.mil/services/safetydivision/main.htm. Take a moment before the summer excitement builds and check it out for simple reminders that

could save a life.

Officer Candidate School Board

The next Board will convene June 10 in the 6th Area Support Group Command conference room. The packet must be received by the 6th ASG Adjutant by June 5. The department of the Army OCS Board will convene July 22.

Motorcyclists Exercise Safety, Caution

U.S. Army Europe has already had one serious motorcycle accident this year. In Europe, motorcycle usage peaks during the summer months. According to the USAREUR Safety Office, motorcycle accidents on European roads often involve a serious injury or fatality because of the high speeds vehicles are allowed to travel.

For more motorcycle safety information, including a description of the six motorcycle survival skills, go to www.per.hqusareur.army.mil/services/safetydivision/main.htm, click on vehicle safety and then motorcycle safety.

New Rules For Driver's Licenses

Soldiers and civilians arriving in Germany can no longer use a military driver's license as the basis for obtaining a license to drive a privately owned vehicle.

Drivers must now possess a valid U.S. state drivers license or country license in order to obtain a U.S. Forces POV Certificate of License and operate a private auto off post, according to officials at the U.S. Army Europe Office of the Provost Marshal. More information can be obtained from the

USAREUR Vehicle Registration Web site at <http://rmv.hqusareur.army.mil>.

Military Paperless Check Conversion

A team from the Defense Finance and Accounting Service will install a Military Paperless Check Conversion in their disbursing operation in late May. MPCC scans personal checks to extract account information, then the finance clerk inputs the dollar amount to be cashed. The finance clerk then stamps the check "Void- electronic withdrawal", and returns the check to the customer along with the money. The customer retains the check as a receipt and the funds are electronically withdrawn from the customers account with 24 to 48 hours. For more info contact the 208th Finance office.

Reduced Entitlement To FLLP

The Department of the Army reduced the number of languages authorized for both Foreign Language Proficiency Pay I and II. Common languages such as German and Spanish are no longer authorized languages for FLLP II entitlement. For more info about FLLP and the new language authorization call the military pay section, 430-5411/civ. 0711-680-5411.

15-Passenger Vans Warning
